Tips for Submitting a Valid Enrollment Verification

In order for an enrollment verification to be considered *valid*, it must supply the following three things:

- 1) **current class level:** your class level must be expressly indicated (i.e. it must say freshman, sophomore, junior, senior, graduate, or indicate that you are pursuing a Masters or PhD degree)
- 2) **anticipated graduation date:** we ask for this to ensure that you will still be enrolled during the internship session; if your school cannot provide an anticipated graduation date for any reason, we can also accept a form that shows that you will be *enrolled* for the upcoming semester (even if you are not taking classes) as long as it also shows your class level and proof of validation by your institution
- 3) **proof of validation by institution:**
 - a. If you submit a HACU-issued enrollment verification, it *must* supply your school's official seal/stamp; a raised seal can be made discernable in the scanned and uploaded form by going over it lightly with a pencil.
 - b. If you submit an enrollment verification issued by your university, it must either be printed on heat-sensitive security paper OR university letterhead.

NOTE: If you are unable to obtain an enrollment verification that meets the above three criteria, you may have an academic advisor write a brief letter on your behalf verifying your class level and anticipated graduation date (or dates of upcoming enrollment in lieu of a graduation date). If you do this, the letter must be drafted on university letterhead, and your advisor must include his or her business card. DO NOT attach a university bill or any enrollment information copied and pasted from a student account into a Word Document.
