### How Nevada's first Hispanic-Serving Institution Led to Statewide Transformational Change

#### Crest 3

The first HSI in Nevada, College of Southern Nevada, has utilized Title V to enhance the Southern region. As a multicampus model, CSN engages effectively and efficiently across three campuses while serving as a bridge for other Southern Nevada HSIs. This presentation will showcase how CSN has become a driving force for economic development and transformational change within the region and facilitate a roundtable conversation to learn how other campuses can implement this model.

**Janna Bernstein, Ph.D.**, Director, Title V, College of Southern Nevada

**Clarissa M. Cota, J.D.**, Vice President of North Las Vegas Campus, College of Southern Nevada

### Building Research Capacity with the *All of Us* Research Program

#### Summit 7

*All of Us* is building the nation's largest, most diverse biomedical dataset and engages researchers across all backgrounds and career levels to accelerate health research. We invite students, faculty, administrators and advocates to join our session and learn about how the program supports institutions and researchers utilizing the *All of Us* dataset with capacity building, training and education, program resources and funding opportunities.

### AlamoBooks+: Supporting Equity and Students' Readiness for Success

#### Crest 5

Alamo Colleges District (ACD), the largest provider of higher education in South Texas, is committed to eradicating intergenerational poverty through education and training. AlamoBooks+, ACD's high-impact instructional materials program, removes the barrier of high-cost instructional materials to support students' social and economic mobility. Participants will learn how ACD took a proof of concept to scale to develop the innovative AlamoBooks+ program, which provides universal access to instructional materials, including open educational resources, for all students.

**George Railey, Ed.D.**, Vice Chancellor for Academic Success, Alamo Colleges District

**Pam Herrington Moriarty, M.A.**, Director of Universal Access of Instructional Materials, Alamo Colleges District

### Implementation of Accelerated Learning Program on Developmental Mathematics Students

#### Crest 4

The Accelerated Learning Program (ALP) is showing promising results for developmental mathematics students. The ALP model implemented in the current four-year technical college was developed as a co-requisite model, where the students enrolled in both developmental and college-level courses. A study was conducted to observe the effects of ALP on academic achievement and retention of developmental mathematics over multiple semesters. The results suggested positive effects of ALP and alternate methods of acceleration will be shared.
